City of Kingston Report to Municipal Accessibility Advisory Committee Report Number MAAC-24-012

Chair and Members of the Municipal Accessibility Advisory	
Committee	
Janet Jaynes, City Clerk	
Derek Ochej, Deputy City Clerk	
September 5, 2024	
Accessibility Standards Policy	

Council Strategic Plan Alignment:

Theme: Corporate business

Goal: See above

Executive Summary:

The purpose of this report is to provide an overview of the review process undertaken for the City of Kingston Accessibility Standards Policy. Staff are recommending rescinding the current policy (first approved in 2013) and approving a new policy, attached as Exhibit A to this report.

Staff have consulted internally and with members of the Committee's Awareness and Education Project Team in the drafting of the new policy. The purpose of the policy is to detail how the City of Kingston will meet its obligations to provide goods, services and facilities in an accessible manner as detailed in the *Accessibility for Ontarians with Disabilities Act, 2005* and Ontario Regulation 191/11, Integrated Accessibility Standards.

Recommendation:

That the Municipal Accessibility Advisory Committee recommend to Council:

That the current Accessibility Standards Policy, approved by Council in 2013, be rescinded, and the proposed Accessibility Standards Policy, attached as Exhibit A to Report Number MAAC-24-012, be approved; and

Page 2 of 7

That the City of Kingston Notice of Temporary Service Disruption Policy be rescinded.

Options/Discussion:

Background

The City of Kingston's <u>Accessibility Standards Policy</u> was first approved by City Council in January 2013. The purpose of the Accessibility Standards Policy is to provide an overarching framework to guide the review and development of City of Kingston policies, procedures, bylaws and guidelines to ensure compliance with the *Accessibility for Ontarians with Disabilities Act, 2005* (AODA) and Ontario Regulation 191/11, Integrated Accessibility Standards (IASR).

The existing Accessibility Standards Policy (the existing policy) was developed at a time when many of the standards of the AODA and IASR were scheduled to come into effect in future years for municipalities such as Kingston. The existing policy has received two revisions since 2013: the first revision (2015) provided additional definitions and clarifying statements as well as improving document formatting. The second revision (2016) added information with respect to the implementation of the Customer Service Standard.

Accessibility Office staff have worked in coordination with staff across the City to develop an updated Accessibility Standards Policy (the proposed policy), attached to this report as Exhibit A. Representatives from Engineering Services, Facilities Management & Construction Services, Recreation & Leisure Services, Transportation & Transit Services, Communications & Customer Experience, Arts & Culture Services, Human Resources & Organization Development, Information Systems & Technology, Heritage Services, Housing & Social Services, Legal Services and Community Development and Wellbeing were consulted as part of the policy review.

The proposed policy incorporates changes to accessibility legislation since the existing policy was last reviewed as well as changes in City of Kingston internal implementation of accessibility legislation. Staff also worked with members of the Awareness & Education Project Team to review drafts of the proposed policy and incorporate suggested changes. Further details regarding the proposed policy are detailed in the Analysis section below.

Analysis

The following is a summary list of changes that have been made between the existing policy and the proposed policy:

 Utilizing the updated corporate policy template and organizing the proposed policy into sections based on the five sections of the IASR: Customer Service, Information and Communication, Employment, Transportation, and Design of Public Spaces. Sections are also included for Training and Procurement as there are specific requirements within the AODA for these areas;

Page 5 of 7

- Organizing the proposed policy into two distinct sections. The first section details the legal requirements of the City with respect to the AODA and IASR. The second section, entitled Appendix A – Accessibility Standards Best Practices for Staff, provides a reference guide for staff with respect to incorporating accessibility best practices in their roles with the City;
- Incorporating previously separate policies regarding temporary service notice disruptions and feedback processes related to accessible service provision into the proposed policy. The current Notice of Temporary Service Disruption Policy is proposed to be rescinded as it has been updated and incorporated into the proposed policy;
- Expanding information contained in the Customer Service section regarding assistive devices, service animals, and tips for providing customer service to persons with disabilities;
- Expanding information contained in the Employment section to provide greater transparency for current and potential employees;
- Adding a section related to Procurement and the City's processes for ensuring that accessibility is taken into consideration when procuring goods, services and facilities.

The proposed policy also includes updated foundational principles and an updated statement of commitment. These are reproduced below and have been created with the understanding that the City of Kingston should strive to levels of accessibility and inclusion for persons with disabilities above and beyond the minimum legal requirements:

- Staff will work to ensure the creation of no new barriers to accessibility;
- Staff will strive to achieve the highest level of inclusion in all work, where possible, above and beyond meeting the requirements of the AODA and its regulations;
- The City of Kingston's provision of goods, services and facilities will:
 - o Respect the dignity and independence of persons with disabilities;
 - Be integrated into the provision of services for all, unless an alternative measure is necessary;
 - Be of an equal opportunity for persons with disabilities; and
 - Account for the nature of a person's disability.

Page 6 of 7

Next Steps

Following approval of the proposed policy, staff will begin the process of developing a new training module for all City staff. The focus of the training will be on awareness regarding the policy and the tools contained within it, as well as tips for providing customer service to persons with disabilities. The primary form of this training will be eLearning, complemented by the opportunity for in-person training sessions tailored to specific staff/departmental needs.

The approved policy will be posted to the City of Kingston website, as required under the AODA.

Indigenization, Inclusion, Diversity, Equity & Accessibility (IIDEA) Considerations

The AODA requires the City of Kingston to have and make publicly available a number of policies related to accessibility. In summary these include policies related to:

- achieving accessibility through meeting the requirements of the IASR;
- making an organizational commitment to meet the accessibility needs of persons with disabilities in a timely manner;
- providing goods, services or facilities in a manner that respects the dignity and independence of persons with disabilities;
- integrating the above provision of goods, services or facilities with the provision of goods, services or facilities to others, unless an alternative method is required, on either a temporary or permanent basis;
- providing an equal opportunity for persons with disabilities to access goods, services or facilities to that opportunity given to others;
- communicating with a person with a disability in a manner that takes into account that person's disability;
- the use of assistive devices by a person with a disability when accessing goods, services or facilities;

The Accessibility Standards Policy, along with the Accessible Consultation Process Policy and the Facility Accessibility Design Standards, ensure that the City of Kingston meets these requirements. As outlined in the previous section, staff have incorporated processes and procedures into the Accessibility Standards Policy that exceed the requirements of provincial legislation and will continue to work to the highest attainable level of accessibility as outlined the foundational principles and statement of commitment.

Status	DRAFT.
Final Approver	Council.

1.0 Interpretation

1.1 In this policy, unless the context requires otherwise:

"AODA" means the Accessibility for Ontarians with Disabilities Act, 2005, S.O. 2005, c. 11;

"career development and advancement" has the meaning given to it in the IASR;

"*City*" means The Corporation of the City of Kingston;

"*City employee*" means a person who performs work or supplies services directly to the *City* for monetary compensation under an employment contract but does not include council members;

"**CMT member**" means a member of the *City*'s corporate management team and includes the person appointed chief administrative officer by the *City*, the person appointed treasurer by the *City*, and a commissioner responsible for the leadership and operation of a portfolio of *City* departments;

"communication" has the meaning given to it in the IASR;

"Deputy City Clerk" means the person appointed as deputy city clerk by the City;

"director" means the director of a City department;

"disability" has the meaning given to it in the AODA;

"**FADS**" means facility accessibility design standards which establish *City*-wide standards that build a universally designed and accessible community for residents, visitors and *City employees*;

"*guide dog*" has the meaning given to it in the *Blind Persons' Rights Act, R.S.O.* 1990, c. B. 7;

"Human Rights Code" means the Human Rights Code, R.S.O. 1990, c. H.19;

"**IASR**" means Ontario Regulation 191/11: Integrated Accessibility Standards, made under the AODA;

"information" has the meaning given to it in the IASR;

"*kiosk*" has the meaning given to it in the *IASR*;

"**MAAC**" means the Municipal Accessibility Advisory Committee, the *City*'s accessibility advisory committee established in accordance with subsection 29 (1) of the *AODA*;

"*manager*" means a *City employee* who reports directly to a *director*;

"performance management" has the meaning given to it in the IASR;

"service animal" has the meaning given to it in the IASR;

"specialized transportation services" has the meaning given to it in the IASR;

"*supervisor*" means a *City employee* who reports directly to a *manager*;

"support person" has the meaning given to it in the IASR;

"transit bus" has the meaning given to it in the IASR; and

"**transit service**" means the *City*'s public passenger transportation service on *transit buses*;

- 1.2 In this policy, "include", "includes" and "including" indicate that the subsequent list is not exhaustive.
- 1.3 A reference to any legislation, regulation, by-law, rule, policy or provision thereof includes a reference to any legislation, regulation, by-law, rule or provision thereof enacted in substitution thereof or amendment thereof.
- 1.4 A reference to legislation includes all of the regulations made thereunder.
- 1.5 A reference to the position or title of any *City employee* includes a reference to any position or title created in substitution thereof.

2.0 Purpose

- 2.1 The purpose of this policy is to:
 - (a) recognize the history of discrimination against persons with *disabilities* in Ontario;

- (b) assist the City to achieve accessibility for persons with *disabilities* with respect to goods, services, facilities, accommodations, employment, buildings, structures and premises as required by the *AODA*;
- (c) make a statement of organizational commitment to meet the accessibility needs of persons with *disabilities* in timely manner;
- (d) recognize that achieving the purposes set out in clauses (a), (b) and (c) and working to the highest level of inclusion is to the benefit of all members of the community; and
- (e) be consistent with and complement the City's Accessible Consultation Process Policy.

3.0 Statutory Requirements - General

- 3.1 The *City*, as an organization, is committed to meet the accessibility needs of persons with *disabilities* in a timely manner.
- 3.2 The City must, in accordance with the AODA:
 - (a) develop, implement and maintain policies governing how the *City* achieves, or will achieve, accessibility through meeting its requirements referred to in the *IASR*;
 - (b) prepare one or more documents describing its policies developed under subsection 3.2 (a).
- 3.3 The Deputy City Clerk must make this policy, the City's Accessible Consultation Process Policy, and any other documents described in clause 3.2 (b), publicly available, and upon request, provide them in an accessible format.
- 3.4 *Directors* must take reasonable steps within their authority to ensure that the *City* complies with its obligations under section 3.2.
- 3.5 The *director* of Financial Services must ensure that the *City*:
 - (a) incorporates accessibility features when designing, procuring or acquiring self-service *kiosks*; and
 - (b) has regard to the accessibility for persons with *disabilities* when designing, procuring or acquiring self-service *kiosks*.
- 3.6 The *director* of Human Resources & Organization Development must ensure:

- (a) that the *City*, as soon as practicable, provides training on the requirements of the accessibility standards referred to in the *IASR* and the *Human Rights Code* as it pertains to persons with *disabilities* to:
 - (i) all *City employees* and persons who volunteer with the *City*;
 - (ii) all persons who participate in developing *City* policies; and
 - (iii) all other persons who provide goods, services or facilities on behalf of the *City*.
- (b) the training referred to in clause (a) is appropriate to the duties of the person receiving the training; and
- (c) the *City* provides training in respect of any changes to this policy, the *City's Accessible Consultation Process Policy*, or any other policies described in clause 3.2 (a) on an ongoing basis.
- 3.7 The *City* must keep a record of training provided under section 3.66, including the dates on which the training is provided and the number of persons to whom it is provided.

4.0 Information and Communications Standard

- 4.1 The *director* of Communications & Customer Experience must ensure that:
 - (a) the *City*'s processes for receiving and responding to feedback are accessible to persons with *disabilities* by providing or arranging for the provision of accessible formats and communications supports, upon request;
 - (b) the *City* notifies the public about the availability of accessible formats and communications supports with respect to the feedback process;
 - (c) the *City*, upon request, provides or arranges for the provision of accessible formats and communication supports for persons with *disabilities* in a manner that takes into account the person's needs due to *disability* and at a cost that is no more than the regular cost charged to other persons.
- 4.2 The Chief Information Officer must ensure that the *City* makes its internet and intranet websites and web content conform with the World Wide Web Consortium Content Accessibility Guidelines (WCAG) 2.0 level AA.
- 4.3 The *manager* of Administration and Emergency Preparedness must ensure that if the *City* makes an emergency procedure, plan or public safety *information* available

to the public, it provides the *information* in an accessible format or with appropriate communications support, as soon as practicable, upon request.

5.0 Employment Standards

- 5.1 The *director* of Human Resources & Organization Development must ensure that the *City*:
 - (a) notifies City employees and the public about the availability of accommodation for applicants with disabilities in its recruitment processes;
 - (b) during a recruitment process:
 - notifies job applicants, when they are individually selected to participate in an assessment or selection process, that accommodations are available, upon request, in relation to the materials or processes to be used in the selection process; and
 - (ii) if a selected applicant requests an accommodation, the *City* consults with the applicant and provides a suitable accommodation in a manner that takes into account the applicant's needs due to *disability*;
 - (c) when making offers of employment, notifies the successful applicant of the *City's* policies for accommodating *City employees* with *disabilities*;
 - (d) informs *City employees* of its policies used to support *City employees* with *disabilities*, including policies on the provision of job accommodations that take into account a *City employee's* accessibility needs due to *disability*;
 - (e) provides the *information* required under clause (d) to new *City employees* as soon as practicable after they begin their employment;
 - (f) provides updated *information* to *City employees* whenever there is a change to existing policies on the provisions of job accommodations that take into account a *City employee's* accessibility needs due to *disability*;
 - (g) upon request from a *City employee* with a *disability*, consults with the *City employee* to provide or arrange for the provision of accessible formats and communications supports for:
 - (i) *information* that is needed in order to perform the *City employee's* job; and
 - (ii) *information* that is generally available to *City employees* in the workplace;

- (h) upon request from a *City employee* with a *disability*, consults with the *City employee* making the request to determine the suitability of an accessible format or communication support;
- (i) provides, as soon as practicable after the *City* becomes aware of the need for accommodation due to the *City employee's disability*, individualized workplace emergency response *information* to *City employees*, if the *disability* is such that the individualized *information* is necessary and the City is aware of the need for accommodation due to the *City employee's disability*;
- (j) reviews the individualized workplace emergency response *information* when:
 - (i) the *City employee* moves to a different location in the organization;
 - (ii) the *City employee's* overall accommodations needs or plans are reviewed; and
 - (iii) the *City* reviews its general emergency response policies;
- (k) develops and has in place a written process for the development of individual accommodation plans for *City employees* with *disabilities* that complies with the requirements of subsection 28 (2) of the *IASR*;
- develops and has in place a return to work process for *City employees* that have been absent from work due to *disability* and requires *disability*-related accommodations in order to return to work, and documents the process;
- (m) the City's return to work process outlines the steps the City will take to facilitate the return to work of City employees who were absent because their disability required them to be away from work and uses a documented individual accommodation plan, as described in clause (k), as part of the process;
- (n) in its performance management and career development and advancement processes, takes into account the accessibility needs of *City employees* with *disabilities*, as well as any individual accommodation plans, when using those processes in respect of *City employees* with *disabilities*.

6.0 Transportation Standards

6.1 The *director* of Transportation & Transit Services must ensure that the *City's transit service*:

- (a) makes available to the public current information on accessibility equipment and features of its vehicles, routes and services;
- (b) upon request, provides the information referred to in clause (a) in an accessible format;
- (c) if the accessibility equipment on a *transit bus* is not functioning and equivalent service cannot be provided, takes reasonable steps to accommodate persons with *disabilities* who would otherwise use the equipment and repairs the equipment as soon as is practicable;
- (d) conducts *City employee* and volunteer accessibility training which includes training on:
 - (i) the safe use of accessibility equipment and features;
 - (ii) acceptable modifications to procedures in situations where temporary barriers exist or accessibility equipment on a *transit bus* fails; and
 - (iii) emergency preparedness and response procedures that provide for the safety of persons with *disabilities*;
- (e) keeps a record of the training provided under clause (d), including the dates on which the training is provided and the number of individuals to whom it is provided;
- (f) establishes, implements, maintains and documents emergency preparedness and response policies that provide for the safety of persons with *disabilities*, makes those policies available to the public, and, upon request, provides those policies in an accessible format;
- (g) does not charge a fare to a *support person* who is accompanying a person with a *disability* where the person with a *disability* has a need for a *support person*, provided that the person with a *disability* demonstrates their need for a *support person* to accompany them and ensures that the appropriate designation for the *support person* is in place;
- (h) develops and identifies, in the *City*'s accessibility plan:
 - the process for managing, evaluating and taking action on customer feedback;
 - (ii) the process for estimating the demand for *specialized transportation services*; and

- (iii) steps to reduce wait times for *specialized transportation services*; and
- (iv) a description of the *transit service*'s procedures for dealing with accessibility equipment failures on its *transit buses*;
- (i) deploys lifting devices, ramps or portable bridge plates upon the request of a person with a *disability*;
- (j) provides adequate time to persons with *disabilities* to safely board, be secured and deboard *transit buses* and provides assistance, upon request, for these activities;
- (k) assists with safe and careful storage of mobility aids or mobility assistive devices used by persons with *disabilities*;
- (I) allows a person with a *disability* to travel with a medical aid;
- (m) upon request, makes the information on the matters referred to in clauses(i), (j), (k) and (l) available in an accessible format;
- (n) does not charge a higher fare to a person with a *disability* than the fare that is charged to a person without a *disability*;
- (o) makes persons with *disabilities* able to board or deboard a *transit bus* at the closest available safe location, as determined by the operator after considering the preferences of the person with a *disability*, that is not an official stop, if the stop is not accessible and the safe location is along the same transit route;
- (p) requires *transit bus* operators to promptly report to a *supervisor* where a transit stop is temporarily inaccessible or where a temporary barrier exists;
- (q) if safe storage is possible, store mobility aids and mobility assistive devices in the passenger compartments of its *transit buses* within reach of the person with the *disability* who uses the aid or device;
- (r) does not charge a fee for the storage of a mobility aid or mobility assistive device;
- (s) clearly marks priority seating for persons with *disabilities* on its *transit buses* and ensures that the priority seating meets the following standards:
 - (i) the priority seating for persons with *disabilities* must be located as close as practicable to the entrance door of the *transit bus*;

- the priority seating must be signed to indicate that passengers,
 other than persons with *disabilities*, must vacate the priority seating
 if its use is required by a person with a *disability*;
- (t) develops a communication strategy designed to inform the public about the purpose of priority seating;
- (u) where a route or scheduled service is temporarily changed and the change is known in advance of the commencement of the trip:
 - (i) makes available alternate accessible arrangements to transfer persons with *disabilities* to their route destination where alternate arrangements for persons without *disabilities* are inaccessible; and
 - (ii) communicate information on alternate arrangements in a manner that takes into account the person's *disability*;
- (v) on request, has electronic pre-boarding announcements of the route, direction, destination or next major stop on its *transit buses* that satisfy the requirements set out in section 58 of the *IASR*;
- (w) has audible verbal announcements of all destination points or available route stops on its *transit buses* while the *transit bus* is on route or while the *transit bus* is being operated;
- (x) has announcements of all destination points or available route stops through electronic means and legibly and visually display all destination points or available route stops through electronic means; and
- (y) makes all of its *transit buses* comply with the technical requirements set out in sections 53 to 61 of the *IASR*.

7.0 Design of Public Spaces Standards

- 7.1 The *director* of the department responsible for a project described in clauses (a) through (i) must ensure that, if newly constructing or redeveloping public spaces, the *City* complies with the technical requirements for:
 - (a) recreational trails, set out in section 80.9 of the *IASR*;
 - (b) beach access routes, set out in section 80.10 of the *IASR*;
 - (c) recreational trails and beach access routes, set out in sections 80.11 to 80.15 of the *IASR*;

- (d) outdoor public eating areas, set out in sections 80.16 and 80.17 of the *IASR*;
- (e) outdoor play spaces, set out in sections 80.18 to 80.20 of the *IASR*;
- (f) exterior paths of travel, set out in sections 80.21 to 80.31 of the *IASR*;
- (g) accessible parking, set out in sections 80.32 to 80.39 of the *IASR*;
- (h) obtaining services, set out in sections 80.40 to 80.43 of the *IASR*; and
- (i) maintenance, set out in section 80.44 of the *IASR*.

8.0 Customer Service Standards

- 8.1 The Chief Administrative Officer must ensure that the *City*:
 - (a) develops, implements and maintains policies governing its provisions of goods, services or facilities, as the case may be, to persons with *disabilities* and the *City* uses reasonable efforts to ensure that the policies are consistent with the following principles:
 - the goods, services or facilities must be provided in a manner that respects the dignity and independence of persons with *disabilities*;
 - the provision of goods, services or facilities to persons with disabilities must be integrated with the provision of goods, services or facilities to others, unless an alternative measure is necessary, whether temporarily or on a permanent basis, to enable a person with a disability to obtain, use or benefit from the goods, services or facilities;
 - (iii) persons with *disabilities* must be given an opportunity equal to others to obtain, use and benefit from the goods, services or facilities; and
 - (iv) when communicating with a person with a *disability*, the *City* must do so in a manner that takes into account the person's *disability*;
 - (b) makes the policies established under clause (a) deal with the use of assistive devices by persons with *disabilities* to obtain, use or benefit from the goods, services or facilities or with the availability of other measures, if any, which enable them to do so;

- (c) prepares one or more documents describing the policies established under clause (a) and, on request, gives a copy of any such document to any person;
- (d) notifies persons to whom it provides goods, services or facilities that the documents required by clause (c) are available on request;
- (e) at premises owned by the *City* where goods, services or facilities are provided to members of the public or other third parties and the public or third parties have access to the premises:
 - permits a person with a *disability* accompanied by a *guide dog* or service animal to enter the premises and to keep the animal with the person, unless the animal is otherwise excluded by law from the premises;
 - (ii) if a guide dog or service animal is excluded by law from the premises, makes other measures available to enable a person with a disability to obtain, use or benefit from the City's goods, services or facilities;
 - (iii) if a person with a *disability* is accompanied by a *support person*, permits both persons to enter the premises together and does not prevent the person with a *disability* from having access to the *support person* while on the premises;
 - (iv) only requires a person with a *disability* to be accompanied by a *support person* after consulting with the person with a *disability*, considering the available evidence, and determining that a *support person* is necessary to protect the health or safety of the person with a *disability* or the health or safety of others on the premise, and there is not other reasonable way to protect the health or safety of others on the premise, and the person with a *disability* and the health or safety of others on the premises;
- (f) posts this policy at a conspicuous place on premises owned or operated by the *City*, by posting it on the *City*'s website or by otherwise notifying persons to whom the *City* provides goods, services or facilities as is reasonable in the circumstances;
- (g) if, in order to obtain, use or benefit from the *City*'s goods, services or facilities, persons with *disabilities* usually use other particular facilities or services of the *City* and if there is a temporary disruption of those facilities or services in whole or in part, the *City* gives notice of the disruption to the public in accordance with section 80.48 of the *IASR*;

- (h) provides, as soon as practicable, the following persons with training about the provision of the *City*'s goods, services or facilities, as the case may be, to persons with *disabilities*:
 - (i) all *City employees* and persons who volunteer with the *City*;
 - (ii) all persons who participate in developing *City* policies; and
 - (iii) all other persons who provide goods, services or facilities on behalf of the *City*;

which training must include a review of the purposes of the *AODA*, the requirements of the *IASR*, and instruction on the matters required by subsection 80.49 (2) of the *IASR*;

- keeps records of the training provided under clause (h), including the dates on which the training is provided and the number of individuals to whom it is provided;
- (j) prepares a document that describes its training policy, summarizes the content of the training and specifies when the training is to be provided and, on request, gives a copy of the document to any person;
- (k) notifies persons to whom it provides goods, services or facilities that the document required by clause (j) is available on request by posting this policy at a conspicuous place on premises owned or operated by the *City*, by posting it on the *City*'s website or by other method as is reasonable in the circumstances;
- (I) establishes a process for receiving and responding to:
 - (i) feedback about the manner in which it provides goods, services or facilities to persons with *disabilities*; and
 - (ii) feedback about whether the feedback process established for the purposes of subclause (i) is accessible to persons with *disabilities*;

which is accessible to persons with *disabilities* by providing, or arranging for the provision of, accessible formats and communication supports, on request;

- (m) prepares a document describing the feedback process and, on request, giving a copy of the document to any person;
- (n) notifies persons to whom it provides goods, services or facilities that the document required by clause (m) is available on request by posting the

information in a conspicuous place on premises owned or operated by the *City*, by posting it on the *City*'s website or by such other method as is reasonable in the circumstances; and

- (o) on request, provides or arranges the provision of any document required to be given under this section to the person in an accessible format or with communication support:
 - (i) in a timely manner that takes into account the person's accessibility needs due to *disability*; and
 - (ii) at a cost that is no more than the regular cost charged to other persons; and
 - (iii) after consulting with the person making the request in determining the suitability of an accessible format or communication support.

9.0 Administration

- 9.1 *CMT members* must take reasonable steps within their authority to direct compliance with this policy.
- 9.2 *Directors* must take reasonable steps within their authority to direct compliance with this policy.
- 9.3 *Managers* must take reasonable steps within their authority to direct compliance with this policy.
- 9.4 *Supervisors* must take reasonable steps within their authority to direct compliance with this policy.
- 9.5 The *Deputy City Clerk* is responsible for:
 - (a) resolving any issues or conflicts relating to this policy;
 - (b) approving any terms or conditions negotiated outside of this policy; and
 - (c) updating the policy to ensure consistency with provincial legislation or other *City* policies or procedures.
- 9.6 A *City employee* who breaches this policy may be subject to discipline up to and including dismissal.

10.0 Application

10.1 This policy applies to all *City employees*.

13.0 Appendix

13.1 14.0 Accessibility Standards Best Practices for Staff

14.0 Appendix A - Accessibility Standards Best Practices for Staff

The following document provides City of Kingston staff with a plain language guide for meeting accessibility standards required by provincial legislation. Where possible, reference is made to existing policies and resources that can be used to assist staff in achieving the highest level of accessibility in providing goods, services or facilities to persons with disabilities.

Foundational Principles and Statement of Commitment

As required by subsection 3(2) of the Integrated Accessibility Standards (Ontario Regulation 191/11) the City of Kingston is committed to meeting the accessibility needs of persons with disabilities in a timely manner. The foundational principles to achieve this work include:

- Staff will work to ensure the creation of no new barriers to accessibility;
- Staff will strive to achieve the highest level of inclusion in all work, where possible, above and beyond meeting the requirements of Accessibility for Ontarians with Disabilities Act and its regulations;
- The City of Kingston's provision of goods, services and facilities will:
 - Respect the dignity and independence of persons with disabilities;
 - Be integrated into the provision of services for all, unless an alternative measure is necessary;
 - Be of an equal opportunity for persons with disabilities; and
 - Account for the nature of a person's disability.

Customer Service

Individual departments are responsible for any additional costs that may be required to meet accessibility requirements for residents. An example of this would be hiring an ASL interpreter or producing a document in an alternate format.

Assistive Devices

Assistive devices can be generally categorized as follows:

- Mobility aids, such as wheelchairs, scooters, walkers or canes;
- Hearing aids to help people hear, or hear more clearly, closed captioning on videos, or assistive listening devices that provide personal sound amplification;

15 of **26**

Page 24 of 49

- Cognitive aids, including computer or electrical assistive devices; and
- Tools or devices, such as automatic page turners, gripping devices or reach extending devices.

Persons using assistive devices or requiring the use of assistive devices provided by the City of Kingston will be allowed to access City goods, services, and facilities.

An exception may occur for the above if it is determined by staff that the use of an assistive device as part of accessing City goods, services, or facilities may pose a safety risk to the person with a disability, staff, or to other facility users. In such cases, staff will work with the person with a disability to offer alternate means to accessing the good, service, or facility, where possible.

Where assistive devices are provided by the City for use by the public, staff will be trained on the safe operation of the assistive devices. Staff will also be trained on proper etiquette with respect to providing customer service to persons with disabilities that use assistive devices.

Service animals

A service animal is an animal that has been task-trained to provide assistance to a person with a disability. A common type of service animal is a guide dog, which provides assistance to persons who are blind or partially sighted. Service animals may also provide assistance to persons with post-traumatic stress disorder, epilepsy, autism spectrum disorder and a variety of other disabilities, both visible and invisible.

A person using a service animal, also known as a handler, may access all City facilities and services that are available to the public unless otherwise prohibited by law. For example, in the *Health Protection and Promotion Act*, service animals are permitted to enter dining areas of a restaurant but are prohibited from being in areas where food is manufactured or prepared for public consumption.

If a person with a service animal wishes to access a City facility or service where in the opinion of staff the presence of the service animal would pose a hazard to the handler, the service animal, staff, or other facility users, staff will make all reasonable efforts to provide the service in an alternate method. For example, staff at Artillery Park created a service animal rest area on the pool deck to allow a handler to access the pool while keeping their service animal within close distance.

During any interactions with a person with a service animal, refrain from acknowledging or distracting the service animal. Interact directly with the handler.

16 of **26**

Service animals are not required to wear any sort of identification, such as a vest. As a result, it can be difficult to differentiate between a service animal and non-service animal. Behaviour is the best indicator as to whether or not an animal is a service animal. A service animal will not interact with persons or other animals, bark or make audible noise. An exception to this may be in cases where the service animal is alerting that their handler is experiencing distress.

If an animal is behaving properly, regardless of status, the best practice is to allow access to the facility. Staff do have the ability to request a handler to provide documentation of their service animal's status from one of the professionals listed below. Note that not all handlers carry this information and people may be from outside of Ontario where documentation requirements may differ:

- A member of the College of Audiologists and Speech-Language Pathologists of Ontario;
- A member of the College of Chiropractors of Ontario;
- A member of the College of Nurses of Ontario;
- A member of the College of Occupational Therapists of Ontario;
- A member of the College of Optometrists of Ontario;
- A member of the College of Physicians and Surgeons of Ontario;
- A member of the College of Physiotherapists of Ontario;
- A member of the College of Psychologists of Ontario; and
- A member of the College of Registered Psychotherapists and Registered Mental Health Therapists of Ontario.

Regardless of status, if an animal is not behaving properly, or poses a safety risk to staff, the handler, or other facility users, the service animal and their handler can be asked to leave the facility. A handler is responsible for maintaining care and control of their service animal at all times.

Support persons

A person with a disability accessing a City facility or service with a support person may have that support person accompany them at all times on premises.

If there is a cost associated with accessing a program or service, the support person will be permitted to attend at no additional cost. This does not apply to third party events held on City property, however, those event organizers are encouraged to comply with this policy.

17 of **26**

Page 26 of 49

Staff may require a person with a disability to be accompanied by a support person if it is determined that is in the best interest of the safety of a person with a disability or others accessing the service or program.

Support persons may be subject to the same confidentiality requirements of the person with a disability. The support person may be required to sign a waiver with respect to any confidentiality issues.

Notice of temporary service disruptions

When a City service becomes unavailable, or if part of a City facility cannot be accessed by the public, it is important to advise users of the service or facility, as well as the general public of this disruption. The following best practices should be used:

- Provide as much advance notice as possible. If the service disruption is unplanned, provide notice as quickly as possible after learning of the disruption;
- Provide notice directly to users of the service or facility, if possible, and to the general public, if necessary;
- Provide information as to why the service is unavailable and the length of time until the service becomes available;
- Advise of alternate methods for obtaining service; and
- Post notice of the service disruption in the physical location (if applicable) and through general media sources such as social media, website, emails, etc.

A template <u>Notice of Temporary Service Disruption</u> can be found on SharePoint. Please use this notice for posting in physical locations and provide a copy to <u>communications@cityofkingston.ca</u>, your department communications officer and <u>customer experience agents@cityofkingston.ca</u>.

Where appropriate staff may use alternate signage to indicate a Temporary Service Disruption, based on site conditions and the nature of the service disruption. Alternate signage should contain the same information as found on the Notice of Temporary Service Disruption and information forwarded to the email addresses above.

Due to the differing nature of the service provided by Kingston Transit compared to other City services, Kingston Transit will maintain its own Notice of Temporary Service Disruption template.

Training

All staff and volunteers are required to complete accessibility training upon their hiring. The training will consist of the following topics:

- The Accessibility for Ontarians with Disabilities Act, the Integrated Accessibility Standards regulation, the Ontario Human Rights Code and how these pieces of legislation interact and complement each other; and
- How to provide accessible customer service.

Whenever there are significant changes to accessibility legislation, all staff will be required to complete training regarding those changes. Additional training resources for staff may also be found on the <u>IIDEA Resources SharePoint</u>.

Individual departments are responsible for providing training to staff on the use of any assistive devices that may be made available for use by the public as part of their operations.

Staff are encouraged to seek out and provide additional accessibility training for staff based on job-specific duties. Human Resources and Organizational Development Service staff are available to assist departments in coordinating training opportunities. Staff may also wish to consult the <u>City Learning Hub</u> or <u>IIDEA Resources SharePoint</u> regarding opportunities for training and development.

Tips

The following are tips for providing customer service to persons with disabilities. One tip to remember above all is to ask before you help - people with disabilities often have their own way of doing things. A simple, 'How can I help you?' goes a long way.

The list below is not inclusive of all disability types, and persons with disabilities may often have multiple disabilities, both visible and invisible. A visible, or apparent, disability may present itself in a physical form that is noticeable on a person's appearance, or through the use of devices such as an assistive cane, service animal or wheelchair.

An invisible, or non-apparent, disability may be a physical, mental or neurological condition that is not visible from the outside yet can limit or challenge a person's movements, sense or activities.

Treat each interaction with a person with a disability as a unique situation.

• Do not touch assistive devices or equipment without permission from the person with a disability.

19 of **26**

Page 28 of 49

- When assisting a person with vision loss, identify yourself when you approach and speak directly to the person. Be precise and descriptive when providing directions or instructions. For example, if guiding them to a seat, indicate if the seat is in front, to the left or the right of the person. Offer your elbow to help guide, if needed. If you need to leave the person let them know you will be back and guide them to a comfortable location before you leave. When you return, identify yourself again.
- When assisting a person with hearing loss, make sure you are in a well-lit area where they can see your face and read your lips. Try to remove background noise if possible. If necessary, ask if another method of communication would be easier (such as using a pen and paper). If the person is with a sign language interpreter, speak directly to the person, not the interpreter.
- When assisting a person with speech or language disabilities, try asking questions that can be answered with a 'yes' or 'no'. Be patient and do not try to finish the person's sentences. Confirm your understanding of what the person has said by summarizing or repeating.
- When assisting a person with learning or developmental disabilities, be patient and do not make assumptions about what a person can or cannot do. Use plain language and provide information one piece at a time. Try to provide information in a way that works for the person.
- When assisting a person with mental health disabilities, treat them with the same respect and consideration as any other person. Be confident and reassuring while respecting the person's personal space. Try to limit distractions that could affect the person's ability to focus or concentrate.
- When assisting a person with a service animal, do not touch or interact with the animal. If the person cannot access a service with the service animal, provide an explanation as to why and find another way to provide the service. See the Service Animals section of this document for more details.
- When assisting a person with a disability who is accompanied by a support person, always communicate directly with the person with a disability. An exception can be provided if the person with a disability directs you to interact directly with their support person.

Information and Communications

Feedback process

Staff will encourage easy access to feedback through a variety of channels. Staff will record and analyze all feedback received, including suggestions, complaints, and compliments, with a goal of identifying how to improve service delivery. Timelines will be established for responding to feedback and to contacting a customer with a response, including keeping the customer informed if a response is unable to be provided within the set timeline.

Staff can receive feedback regarding the accessibility of City goods, services, and facilities from the public in a variety of ways including:

- By telephone, 613-546-0000, monitored weekdays from 8 a.m. to 5 p.m.;
- By e-mail at <u>accessibility@cityofkingston.ca;</u>
- In writing to: City of Kingston Customer Service 216 Ontario Street Kingston ON K7L 2Z3;
- Via the <u>MyKingston</u> Customer Relationship Management (CRM) system; and
- In-person conversation by speaking with staff at City facilities who will document the feedback.

The best practice is to work with the person providing the feedback to determine the appropriate method for receiving their feedback. The following steps may act as a guide for staff:

Step 1: Identify and record feedback at the point of delivery.

- The staff member receiving the initial feedback at the point of delivery will be responsible for ensuring that the information is documented. All feedback must be recorded, including suggestions, complaints, and compliments.
- All resident concerns regarding accessibility are to be logged into the CRM system to ensure the feedback is documented and forwarded to the proper department. When entering the concern, click the 'Details' tab, and select yes under 'Accessibility Confirm' and chose the appropriate 'Accessibility Category'. Documenting accessibility feedback and concerns via the CRM ensures tracking within the statistics kept by the Accessibility Office.

21 of **26**

Step 2: Staff response to the feedback.

- All suggestions and compliments received or logged by staff in the CRM system will be acknowledged within five business days. If required, suggestions or compliments will be forwarded to the appropriate department for response and direct follow up with the customer.
- Staff receiving a complaint will attempt to provide a resolution, if possible. If the problem is resolved the complaint will be logged into the CRM as complete. If the problem cannot be resolved at first contact, details will be recorded in the CRM system and acknowledged within five business days. The appropriate department will provide a direct response to the resident within five to 10 business days.

Step 3: Learning from feedback.

- The Accessibility Office will report quarterly to the *MAAC* on the feedback captured in the CRM system. Trends and performance will be monitored with information and suggestions to be provided directly to appropriate departmental staff.
- Individual departments are encouraged to generate and review their own reports with regards to accessibility feedback to note areas of success and for potential improvement.

Accessible formats and communications

All documents created for public and internal corporate use should be created in accordance with <u>Accessible Documents Guide</u> and <u>Accessible Documents Checklist</u>.

Documents produced on behalf of the City by outside agencies or consultants should also follow the guidelines above. It is recommended that staff provide the above guide to outside agencies and consultants in the early stages of work.

All documents should contain the following statement in an obvious location to the reader: 'Alternate formats available upon request. Contact 613-546-0000 or <u>contactus@cityofkingston.ca</u>'

Alternate formats of documents will be made available to residents upon request. The format required should be determined through discussion with the person making the request and meet their individual needs. Any additional costs for production of the alternate format are the responsibility of the individual department. Staff can contact their Communications Officer or <u>communications@cityofkingston.ca</u> for

22 of 26

Page 31 of 49

assistance in the creation of alternate formats. Certain alternate formats may require the use of a private company.

Emergency information

Information related to emergency procedures, plans or public safety will conform to the <u>Accessible Documents Guide</u> and <u>Accessible Documents Checklist</u>. This information will also follow the practices outlined above for accessible formats and communications.

Web content standards

At minimum all City website content will conform to Web Content Accessibility Guidelines (WCAG) 2.0AA standards. Staff will strive to implement accessibility practices above and beyond the WCAG 2.0AA standards where possible.

Semi-annual reviews will be conducted of website navigation and content for accessibility. This work will occur in consultation with members of the *MAAC*.

Where possible, web content will be posted in alternate methods to the use of PDFs. Any PDF content that is posted to the website will be created using the <u>Accessible</u> <u>Documents Guide</u> and <u>Accessible Documents Checklist</u> and remediated for use by screen readers prior to posting to the website.

Employment

Recruitment

Throughout the recruitment process, including advertisement, interview, and offers of employment, as well as all communications during the recruitment process, it will be clearly indicated that accommodations will be made for persons requiring them. Staff will work directly with a person with a disability to coordinate reasonable accommodations that take into consideration the nature of a person's disability.

When staff are made aware of a person's disability, or a person with a previously disclosed disability has received an offer of employment, Occupational Health and Safety staff will work directly with the person to develop an individual accommodation plan including an individual emergency response plan.

As part of the offer of employment, a person will be made aware of the City's accessibility policies with respect to employment.

Workplace Accommodations

The process of determining workplace accommodation requirements will follow the City of Kingston Accommodating Disability Policy.

23 of 26

Return to Work

For a workplace or non-workplace injury, when an employee with a disability returns to work they will be offered the opportunity to work in their home position with appropriate restrictions or limitations.

If it is not possible for an employee with a disability to return to work in their home position due to the nature of their disability, staff will work with the employee with a disability to offer a temporary or permanent change in position that allows for accommodation of their disability.

Any modifications of duties that are required will be documented in a Modified Work Plan Form and require the approval of the employee with a disability, union representative, the employee's supervisor, and a representative of the City's Occupational Health and Safety group.

Individual emergency response plans

An employee with a disability that requires individualized workplace emergency response information is responsible for advising their supervisor of this need. Upon being advised of this need, the supervisor and employee with a disability will complete the Workplace Emergency Response Information Form.

At minimum, components of the workplace emergency response information should include:

- Making the employee with a disability aware of accessible entry and exits points to their workplace;
- Removal of all barriers and obstacles leading to, from, and in any location the employee is required to move back and forth from, ensuring a width of travel of no less than 1.5 metres; and
- Identifying an employee(s) in the employee with a disability's workplace with the responsibility for ensuring that the employee with a disability is able to safely exit the workplace in case of an emergency or evacuation of the workplace.

Performance management and career development

Learning and Development staff are available to assist supervisors and other staff in the creation or acquisition of learning materials that meet the needs of staff. Alternate formats can be made available for training and professional development materials, in a format that takes into account the nature of a person's disability.

24 of 26

Page 33 of 49

Inclusive performance management involves the creation of an environment between a supervisor and employee where a comfort level can be established for information sharing with respect to ability the employee's ability to complete work and the need for accommodations.

Supervisors will be made aware of the resources and materials available to assist in developing performance management relationships that allow for the development of beneficial employee-supervisor relationships. Much of this information can be found on the <u>City Learning Hub</u>.

Systems are compatible with assistive technology and staff will ensure that systems are kept up to date to provide a positive user experience for both development and performance related activities.

Transportation

Transit staff will host an annual public meeting to receive feedback regarding the accessibility of Kingston Transit services. The format of this public meeting will take into consideration the needs of persons with disabilities.

Staff will work to ensure that all general responsibilities and technical requirements required of Kingston Transit are met as detailed in Part IV of Ontario Regulation 191/11: Integrated Accessibility Standards.

Taxi

The Kingston and Area Taxi Commission will be invited, on an annual basis, to present to the *MAAC* and receive feedback regarding the proportion of accessible taxicab services required in Kingston.

Design of Public Spaces

Staff responsible for the design of public spaces as detailed in Section 7.0 of this Policy will meet, at minimum, the requirements outlined the Ontario Building Code, Ontario Regulation 191/11, and the City of Kingston Facility Accessibility Design Standards. Where practicable, staff will work to achieve the highest level of accessibility and inclusion.

For consultation requirements with the *MAAC*, persons with disabilities, and the general public, staff will follow the procedures outlined in the City of Kingston Accessible Consultation Process Policy.

25 of **26**

Procurement

Discussion will take place between the Financial Services Department Procurement Division and departmental staff seeking to issue a request for proposals (RFP) on how accessibility elements can be incorporated into the procurement process. This may take the form of applying score weighting or the integration of accessibility elements into the deliverables scope with possible scoring applied.

Included in the RFP template are standard accessibility elements to provide staff who will be issuing an RFP a starting point for accessibility considerations. These elements may include:

- Requesting the proponent to provide a statement of compliance with Ontario Regulation 191/11 (Integrated Accessibility Standards), <u>Part IV.2 Customer</u> <u>Service Standards</u>;
- For organizations with 20 or more employees, requesting the proponent to provide a copy of their Customer Service Accessibility Compliance report as filed through Service Ontario; and
- Confirming that any final reporting documents or similar deliverables will be provided in an accessible format for posting to the City's website.

For projects involving the construction or renovation of City owned, leased or operated facilities, staff have the option to include accessible design requirements as detailed in the City of Kingston Facility Accessibility Design Standards as part of the scope of work and evaluation of non-price criteria.

City of Kingston Information Report to Municipal Accessibility Advisory Committee Report Number MAAC-24-013

Chair and Members of the Municipal Accessibility Advisory
Committee
Janet Jaynes, City Clerk
Derek Ochej, Deputy City Clerk
September 5, 2024
Accessibility Office Q2 2024 Update

Council Strategic Plan Alignment:

Theme: Corporate business

Goal: See above

Executive Summary:

This report summarizes the recent activities within Kingston related to accessibility. Specifically, this report provides customer service statistics for the second quarter of 2024, as well as a status update on other Accessibility Office work for the quarter.

Recommendation:

This report is for information only.

Options/Discussion:

Background

This report outlines the customer service statistics related to accessibility for the second quarter of 2024. The statistics are provided by the City's Customer Experience Division and summarize contacts by telephone, email and social media, as well as reports logged directly by residents in the MyKingston portal, the City of Kingston's Customer Relationship Management software. The data presented in Exhibit A attached to this report shows the related service areas within the City and the seven customer service policy classifications. Details of each contact are documented in MyKingston and sent to the appropriate department for resolution.

Analysis

The total inquiries in the second quarter of 2024 were 195, an increase from 193 inquiries received in the first quarter of 2024. The total number of inquiries received in the second quarter of 2024 (195) increased as compared to the number of inquiries received in the second quarter of 2023 (150). Compared to the five-year average (2019 to 2023) for inquiries in the second quarter of a year (80), the 195 inquiries received in the second quarter of 2024 represents an overall increase; however, the five-year average is artificially low due to two years of the COVID-19 pandemic when inquiries were reduced by as much as 50 to 75 per cent of the past five year average.

The largest volume of inquiries received related to Parking Services (110), Transit (22), Public Works Services (17) and Recreation & Leisure Services (14). Parking, Public Works Services and Transit inquires are consistent with the average for previous second quarters of the year, while Recreation & Leisure Services inquires are increased over previous second quarters of the year. Enforcement Services has also seen an increase in inquiries compared to previous years. More details regarding these categories, including examples of inquiries, can be found in the sections below.

Parking

For the 110 inquiries related to Parking Services, the majority (61) were requests for review of tickets issued for parking in an accessible parking space. 11 inquiries reported hazards such as a blocked sidewalk, 11 inquiries requested an exemption from parking requirements and five inquiries reported a vehicle parked illegally in an accessible parking space. 18 inquiries were related to parking operations such as permit questions, reports of meters or payment machinery malfunction or policy questions.

Ticket reviews can be generalized into the following categories: the requester is an accessible permit holder, but the permit was not displayed; the requester parked illegally as they were not able to find an accessible parking space; the requester was unaware that they were required to

Page 4 of 8

pay for the use of an accessible parking space and; the requester was not an accessible permit holder and claims to have parked by accident in an accessible space.

Inquiry: Client received ticket for parking in a commercial loading zone. She was only parked for 15 minutes to go into a store. She has an accessible permit and could not find parking anywhere and indicates that commercial vehicles were double parked. Doesn't feel the ticket was fair and would like to contest it.

Resolution: Ticket cancelled with a warning issued that commercial loading zones are for commercial vehicles only.

Inquiry: I received a parking ticket. I am sorry I forgot to turn down my visor to show handicap parking pass. Please see attached photos.

Resolution: Ticket cancelled.

Inquiry: Accidently parked in the wrong place while going for coffee and did not realize it was an accessible space/paid for regular parking.

Resolution: Ticket upheld as the City is unable to adjudicate accessible tickets without a valid accessible permit. Requester provided with information on how to contest ticket via Provincial Offences Court.

Transit

11 inquiries were complaints related to Kingston Transit services or operators, five inquiries were questions or concerns related to stops or schedules and two inquiries were praise for Kingston Transit operators.

Inquiry: Customer has requested a different map of transit routes and departure start times be mailed to them. Customer explained that the new map is not easy to read for a senior and it does not have the start times listed at the stops.

Resolution: Map mailed to customer.

Inquiry: Rider had her walker with her, and the driver shouted at her to move her walker.

Resolution: Incident reported to operations manager for follow up with driver.

Inquiry: The driver was extraordinarily polite to all customers throughout my trip downtown. He was noticeably patient and kind with a passenger using a wheelchair and her companion who needed assistance with the whole boarding process. I have had this driver before. He is consistently professional & courteous.

Inquiry: Feedback provided to operations manager and driver.

Page 5 of 8

Public Works

Six inquiries requested repairs to sidewalks, four inquiries requested trimming of hedges or branches along sidewalks, two inquiries requested parks maintenance and two expressed concerns with accessibility of park facilities.

Inquiry: The east side of Cartwright Street between Baiden Street and King Street West has a tree with large limbs growing over the sidewalk. Caller reported they were unable to pass and have to go out onto the street to get around it. Caller and his wife use walkers.

Resolution: Trees and shrubs pruned.

Recreation & Leisure

Inquiries were related to either facility maintenance requirements, such as non-functioning power door operators or lack of change table facilities, or inquiries regarding programming and accessibility considerations.

Inquiry: Caller was inquiring if there was a ramp or level access to the pool at the Culligan Water Park.

Resolution: Staff provided information about ramp access and availability of water wheelchair and other accessible options at the facility.

2024 Committee Work Plan Update

An updated version of the 2024 Committee Work Plan is attached to this report as Exhibit B. All items to date on the Work Plan have been completed. The report from Emergency Preparedness that was scheduled for the September 2024 meeting has been deferred to Q1 2025 due to scheduling conflicts.

At the November Committee meeting, reports will be received from Engineering Services and Transportation and Transit Services. These groups are responsible for active transportation, parks development, sidewalk and trail maintenance and Kingston Transit, among other service areas.

The Committee will also receive a report from the Community Development and Wellbeing Department regarding the Age-Friendly City Plan.

At the end of November, many members of the Committee will be at the end of their term of appointment. Members are encouraged to re-apply to serve on the Committee. The recruitment period will take place in September and October. Member appointments will made before December 1, 2024.

Page 6 of 8

Accessibility Features Map

Coinciding with the launch of the new City website in June 2024, an <u>Accessibility Features Map</u> is now available to the public. The map, which was prepared over a year-long period, highlights accessibility features at City buildings open to the public, and a select number of parks. Accessibility features included in the map are accessible benches, washrooms (including family or universal washrooms), pathways, accessible parking spaces, doors and entrances, tables, barrier-free routes, sidewalk curb cuts, passenger drop off areas, ramps, and signage. Other features highlighted on the map are accessible splash pads, pedestrian crossings and audible traffic controls. The map also denotes accessibility barriers that may be present at facilities, such as doors with no automatic openers or inaccessible paths/routes.

Staff intend to review the content of the map twice annually and to add more City facilities and accessibility features as they become available.

Disabilities Mentoring Day and the Celebrating Accessibility Awards

City of Kingston staff will be participating in Disabilities Mentoring Day (DMD) on October 30, 2024. DMD brings people together to learn from each other, helping to confirm important skills applicable across various jobs. City staff participate by volunteering as mentors and are then matched with job ready persons with disabilities that have an interest in the same career field. Mentors and mentees have a chance to meet in advance of DMD and discuss what the day of job shadowing will entail. Participating in DMD provides City staff with an opportunity to see how their work environment is set up for persons with disabilities and gives individual staff a chance to work directly with persons with disabilities, breaking down myths and barriers. For mentees, they receive a chance to network and show their skills in a real-world environment.

The City of Kingston has participated in DMD for several years, and in addition to staff participating as mentors, the Accessibility Office provides financial support for the day.

Staff have begun preparations for the 14th annual <u>Celebrating Accessibility Awards</u>. Each year the Awards recognize people, groups or organizations that have made or are making significant contributions to improving accessibility for persons with disabilities in Kingston. Nominations are accepted in three categories: business, community member, and community organization.

The awards application process will open with a soft launch in August, followed by an advertising campaign in September and October. Members of the Awareness and Education Project Team will review applications and select the award recipients in November. Recipients will be recognized at a reception held in late November/early December, in coordination with the City's celebration for International Day for Persons with Disabilities on December 3, 2024.

Committee members are encouraged to submit nominations and share information within their networks regarding the nominations process.

Page 7 of 8

Project Team Updates

The following is a summary of project teams that have completed their work and those that have been formed during the second quarter of 2024:

Completed Project Teams

The Kingston East Community Centre project team was completed in the second quarter of 2024.

New Project Teams

The following projects had members appointed in the second quarter of 2024:

- Sydenham Street Active Play Installation;
- Horsey Bay Parkette;
- Crerar and Everitt Park;
- Cecil & Wilma Graham Park; and
- An Gorta Mor Park.

Indigenization, Inclusion, Diversity, Equity & Accessibility (IIDEA) Considerations

By sharing statistics and analysis related to accessibility inquiries received by the City, staff are providing members of the Committee with a snapshot of public trends related to accessibility. Staff will also use this data to better understand areas for improvement of accessibility for City programs, facilities and services.

Existing Policy/By-Law
