7. Request for Deferral

- *1. **Application for Minor Variance and Consent - 22-28 Ellice Street**

4

Note: Deferral is requested as signage requirements were not met under the Planning Act.

File Number: D10-034-2024, D13-070-2024

District: 11 - King's Town

Owner: Matt Archibald

Applicant: Fotenn Planning + Design, Matt Archibald

The Report of the Commissioner of Growth & Development Services (COA-24-081) is attached.

Recommendation:

That minor variance application, File Number D13-070-2024 for the property located at 22-28 Ellice Street to permit the construction of a new semi-detached house on the severed lot, for a total of three dwelling units with three bedrooms in the aggregate across the severed lot, and to address deficiencies resulting from the proposed severance, be approved, as described below:

Severed Lot:

Variance Number 1: Minimum Lot Area for a Semi-Detached House

By-Law Number 2022-62: Table 11.6.1.1.(b)

Requirement: 330.0 square metres per lot

Proposed: 187 square metres per lot

Variance Requested: 143 square metres; and,

Variance Number 2: Minimum Landscaped Open Space

By-Law Number 2022-62: Table 11.6.1.9. Minimum Landscaped Open Space

Requirement: 30%

Proposed: 13.9%

Variance Requested: 16.1%; and,

Variance Number 3: Location of Vehicular Parking Space

By-Law Number 2022-62: Section 7.1.1.

Requirement: Parking to be located on the same lot as the building or use.

Proposed: Parking can be located on-site or on an adjacent parcel (retained lot).

Variance Requested: Removing the requirement for the vehicular parking space to be located solely on the same lot as the corresponding use or building and instead enabling it to be located on the adjacent (retained) lot; and,

Variance Number 4: Location of Bike Parking Space

By-Law Number 2022-62: Section 7.3.1.

Requirement: Bike parking to be provided on the same lot as the use or building.

Proposed: Bike parking can be located on-site or on an adjacent

parcel (retained lot).

Variance Requested: Removing the requirement for the bike parking space to be located solely on the same lot as the corresponding use or building and instead enabling it to be located on the adjacent (retained) lot; and,

Retained Lot:

Variance Number 5: Minimum Interior Setback for Semi-Detached and Townhouse

By-Law Number 2022-62: Table 11.6.1.7.(b)

Requirement: Where a common party wall is located along a lot line: 0 metres from the lot line with the common party wall and 1.2 metres from the other interior lot line

Proposed: Where a common party wall is located along a lot line: 0 metres from the lot line with the common party wall and 0.7 metres from the other interior lot line

Variance Requested: 0.5 metres from the other interior lot line; and,

Variance Number 6: Minimum Parking Space – In line with a driveway

By-Law Number 2022-62: Table 7.4.1.

Requirement: A minimum parking space length of 6.0 metres

Proposed: A minimum parking space length of 5.6 metres

Variance Requested: 0.4 metres; and,

That approval of the minor variance application be subject to the conditions attached as Exhibit A (Recommended Conditions – Minor Variance) to Report Number COA-24-081; and,

That consent application, File Number D10-034-2024, to sever an approximately 189.5 square metre lot from the existing 708.2 square metre subject property located at 22-28 Ellice Street and to establish mutual access easements over both lots., be provisionally approved subject to the conditions included in Exhibit B (Recommended Conditions – Consent) to Report Number COA-24-081.

13. Correspondence

- *1. Correspondence received, dated November 14, 2024, regarding Application for Minor Variance and Permission - 10 Birch Avenue**

**City of Kingston
Report to Committee of Adjustment
Report Number COA-24-081**

To: Chair and Members of the Committee of Adjustment
From: Niki Van Vugt, Intermediate Planner
Date of Meeting: November 18, 2024
Application for: Minor Variance and Consent
File Numbers: D10-034-2024, D13-070-2024
Address: 22-28 Ellice Street
District: District 11 – King’s Town
Owner: Matt Archibald
Applicant: Fotenn Planning + Design, Matt Archibald

Council Strategic Plan Alignment:

Theme: 1. Support Housing Affordability

Goal: 1.1 Promote increased supply and affordability of housing.

Executive Summary:

This report provides a recommendation to the Committee of Adjustment regarding applications for minor variance and consent submitted by Fotenn Planning + Design and Matt Archibald on behalf of the owner, Matt Archibald, for the property located at 22-28 Ellice Street.

The purpose of the consent application (File Number (D10-034-2024)) is to sever an approximately 189.5 square metre lot with 9.7 metres of road frontage on Ellice Street from the existing 708.2 square metre property located at 22-28 Ellice Street. The proposed retained lot will have approximately 518.7 square metres of area, 25 metres of road frontage on Ellice Street, and will maintain the existing four residential dwellings located in the house which resembles a townhouse structure located on the subject property. The applicant notes that proposed severed parcel is to be developed with a new three storey semi-detached house – resembling a townhouse - containing three residential dwelling units, accessed via a communal

November 18, 2024

Page 2 of 16

stairway from the front of the building. As part of the consent application, the application seeks to establish a reciprocal access easement to recognize the proposed shared driveway and rear parking and bike area, with the associated walkway for the severed and retained lots (Exhibit G – Site Plan & Easement).

The minor variance (File Number D13-070-2024) is requested to seek relief from the Kingston Zoning By-Law 2022-62 for the future proposed development on the severed lot, to develop the lot with a three-storey semi-detached house containing three residential dwelling units, and to address performance standards associated with the retained lot. Through the minor variance application, the retained lot requires relief from parking requirements and the minimum interior setback for the Urban Residential 5 (UR5) Zone from the Zoning By-Law 2022-62. In addition, relief is being requested for the severed lot from parking requirements under Section 7 and the minimum lot area and minimum landscaped open space of the Urban Residential 5 (UR5) Zone from By-Law 2022-62.

The requested minor variance and consent applications are consistent with the Provincial Planning Statement and conform with the general intent and purpose of both the City of Kingston Official Plan and Kingston Zoning By-Law Number 2022-62. The requested minor variances are desirable for the appropriate development or use of the land, building or structure and are minor in nature. The proposed minor variance application meets all four tests under Subsection 45(1) of the *Planning Act* and is recommended for approval. The requested consent application has regard to the matters set out in subsection 51(24) of the *Planning Act* and a plan of subdivision is not necessary for the proper and orderly development of the property, as such, is recommended for provisional approval.

Recommendation:

That minor variance application, File Number D13-070-2024 for the property located at 22-28 Ellice Street to permit the construction of a new semi-detached house on the severed lot, for a total of three dwelling units with three bedrooms in the aggregate across the severed lot, and to address deficiencies resulting from the proposed severance, be approved, as described below:

Severed Lot

Variance Number 1: Minimum Lot Area for a Semi-Detached House

By-Law Number 2022-62:	Table 11.6.1.1.(b)
Requirement:	330.0 square metres per lot
Proposed:	187 square metres per lot
Variance Requested:	143 square metres; and,

Variance Number 2: Minimum Landscaped Open Space

By-Law Number 2022-62:	Table 11.6.1.9. Minimum Landscaped Open Space
Requirement:	30%
Proposed:	13.9%
Variance Requested:	16.1%; and,

November 18, 2024

Page 3 of 16

Variance Number 3: Location of Vehicular Parking Space

By-Law Number 2022-62: Section 7.1.1.
 Requirement: Parking to be located on the same lot as the building or use.
 Proposed: Parking can be located on-site or on an adjacent parcel (retained lot).
 Variance Requested: Removing the requirement for the vehicular parking space to be located solely on the same lot as the corresponding use or building and instead enabling it to be located on the adjacent (retained) lot; and,

Variance Number 4: Location of Bike Parking Space

By-Law Number 2022-62: Section 7.3.1.
 Requirement: Bike parking to be provided on the same lot as the use or building.
 Proposed: Bike parking can be located on-site or on an adjacent parcel (retained lot).
 Variance Requested: Removing the requirement for the bike parking space to be located solely on the same lot as the corresponding use or building and instead enabling it to be located on the adjacent (retained) lot; and,

Retained Lot:

Variance Number 5: Minimum Interior Setback for Semi-Detached and Townhouse

By-Law Number 2022-62: Table 11.6.1.7.(b)
 Requirement: Where a common party wall is located along a lot line: 0 metres from the lot line with the common party wall and 1.2 metres from the other interior lot line
 Proposed: Where a common party wall is located along a lot line: 0 metres from the lot line with the common party wall and 0.7 metres from the other interior lot line
 Variance Requested: 0.5 metres from the other interior lot line; and,

Variance Number 6: Minimum Parking Space – In line with a driveway

By-Law Number 2022-62: Table 7.4.1.
 Requirement: A minimum parking space length of 6.0 metres
 Proposed: A minimum parking space length of 5.6 metres
 Variance Requested: 0.4 metres; and,

That approval of the minor variance application be subject to the conditions attached as Exhibit A (Recommended Conditions – Minor Variance) to Report Number COA-24-081; and,

That consent application, File Number D10-034-2024, to sever an approximately 189.5 square metre lot from the existing 708.2 square metre subject property located at 22-28 Ellice Street and to establish mutual access easements over both lots., be **provisionally approved** subject to the conditions included in Exhibit B (Recommended Conditions – Consent) to Report Number COA-24-081.

Options/Discussion:

On September 5, 2024, applications for minor variance and consent were submitted by Fotenn Consultants and Matt Archibald, on behalf of the owner Matt Archibald, for the subject property located at 22-28 Ellice Street.

The purpose of the consent application (File Number (D10-034-2024)) is to sever an approximately 189.5 square metre lot with 9.7 metres of road frontage on Ellice Street from the existing 708.2 square metre property located at 22-28 Ellice Street. The proposed retained lot will have approximately 518.7 square metres of area, 25 metres of road frontage on Ellice Street, and will maintain the existing four residential dwellings with a total of 12 bedrooms located in the existing house, which resembles a townhouse-built form, located on the subject property. As part of the consent application, the application seeks to establish a reciprocal easement to recognize the proposed shared driveway and rear vehicular and bike parking area, with associated walkways for the severed and retained lots (Exhibit G – Site Plan & Easement).

The minor variance (File Number D13-070-2024) is requested to seek relief from the Kingston Zoning By-Law 2022-62 for the future proposed development on the severed lot, to develop the lot with a three-storey semi-detached house containing three residential dwelling units, and to address performance standards associated with the retained lot. Through the minor variance application, the retained lot requires relief from parking requirements under Section 7 and the minimum interior setback for the Urban Residential 5 (UR5) Zone in Section 11.6. from the Zoning By-Law 2022-62. In addition, relief is also being requested for the severed lot from parking requirements under Section 7 and the minimum lot area and minimum landscaped open space of the UR5 Zone in Section 11.6. from By-Law 2022-62.

In support of the applications, the applicant has submitted the following:

- Site Plan & Easement (Exhibit G);
- Planning Justification Report dated September 3, 2024;
- Floor Plans (Exhibit J);
- Architectural Elevations (Exhibit K);
- Archaeological Assessment dated May 15, 2023, prepared by Abacus Archaeological Services;
- Heritage Review dated November 24, 2023, prepared by Heritage Studio;
- Stormwater Management Design Brief dated July 8, 2024, prepared by Forefront Engineering Inc;
- Grading and Servicing Plans;
- Turning Movements (Exhibit L);
- Survey dated October 2022, prepared by Hopkins Chitty Land Surveyors Inc;
- Minor Variance Addendum dated September 3, 2024; and
- Noise Impact Study dated February 20, 2024, prepared by J.E. Coulter Associated Limited.

November 18, 2024

Page 6 of 16

All submission materials are available online through the Development and Services Hub (DASH) at the following link, [DASH](#), using “Look-up a Specific Address”. If there are multiple addresses, search one address at a time, or submission materials may also be found by searching the file number.

Site Characteristics

The subject property is located at 22-28 Ellice Street (Exhibit C – Key Map). The subject lands are approximately 708.2 square metres in area with 34.8 metres of frontage on Ellice Street. The lot is currently developed with four dwelling units, with a total of 12 bedrooms, in what appears to be the built form of a townhouse on the subject property. However, through the recent administrative amendments approved by Council July 9, 2024, changes were made to the definition section of the By-law.

The approved amendments delete the individual definitions of single detached houses, duplexes and triplexes and replace them with one simplified definition of “house”. The definitions of “semi-detached house” and “townhouse” have been updated to focus on the land division element that is inherent to the Bill 23 changes, with new language recognizing the potential for semi-detached houses and townhouses to be converted in a manner that increases the number of residential units up to 4 per lot. As such, under Section 3.8.14. of the By-Law this existing four unit building falls under the definition of a house but resembles that of a townhouse (Exhibit H – Site Photos).

The property abuts a two storey building that is Part IV designated under the *Ontario Heritage Act* municipally addressed as 34-40 Ellice Street and 227-229 Division Street to the west, a one-storey house addressed as 14 Ellice Street to the east, is across the street from a two-and-a-half house addressed as 31 Ellice Street and three-and-a-half storey apartment addressed as 8 Vine Street to the north, and abuts two-and-a-half to three storey houses addressed as 143, 145 and 149 Colborne Street south of the subject lands (Exhibit D – Neighbourhood Context). As indicated above, the built form in the surrounding neighbourhood ranges from houses, semi-detached houses, townhouses to low-rise apartment buildings.

Provincial Planning Statement

The Provincial Planning Statement (PPS) provides policy direction on matters of provincial interest related to land use planning and development which are complemented by local policies addressing local interests. The application being considered is site specific to accommodate a specific proposal and does not involve any major policy considerations and as much, the proposal conforms to and is consistent with the PPS.

Consent Application

The review of an application for a consent is subject to Section 53 of the *Planning Act* which requires the approval authority be satisfied that a plan of subdivision is not necessary for the

November 18, 2024

Page 7 of 16

proper and orderly development of the municipality having regard to the matters addressed in subsection 51(24).

The proposal will result in the creation of an approximately 189.5 square metre separately conveyable residential lot with 9.7 metres of frontage on Ellice Street for the purpose of accommodating additional residential density on the severed parcel, while establishing mutual access easements for the purpose of vehicular and pedestrian egress/ingress into the severed and retained lots. The proposed consent meets the tests set out in the *Planning Act* and plan of subdivision is not required for the proper and orderly development of the property.

Official Plan

The subject property is designated Residential in the City of Kingston Official Plan. The Residential land use designation on Schedule 3-A denotes urban residential land uses that are intended to be on full municipal services. Residential uses are primarily forms of housing including low-rise residential buildings, mid-rise residential buildings and high-rise residential buildings contemplated by Section 2.6 of various types, tenure, and density that respond to a wide range of housing needs. The proposed addition to the existing house results in a semi-detached house across both lots, resembling a lower-rise townhouse-built form, is compatible with the underlying designation and allows for increased opportunities for a range of housing options in the Urban Boundary of the City.

The creation of individual parcels of land by way of consent is subject to the consent policies of the Official Plan. In considering whether the proposal is appropriate, the Committee of Adjustment will have regard for the requirements included within the Official Plan, specifically Section 9.6.13 titled: "Criteria for Consent Approval".

The proposed consent will result in the creation of two lots, one severed and one retained, intended to accommodate additional residential density on the severed parcel. The Kingston Zoning By-Law Number 2022-62 requires a minimum lot area of 330.0 square metres per lot for a semi-detached built form for lots in the Urban Residential 5 (UR5) Zone. The proposed area of the severed lot is consistent with nearby residential lots and is appropriate for the future residential use. The severed and retained parcels have been designed appropriately to accommodate the proposed addition on the severed lot and existing built form on the retained lot, subject to obtaining the requested relief through the minor variance application and meeting the requirements of the Kingston Zoning By-Law Number 2022-62 at the time of future development.

The proposal will result in the creation of a new somewhat irregularly shaped lot in the urban area. However, the existing lot fabric of the parcel reflects an irregular configuration which will be improved through this consent process to sever and establish mutual access easements. The severed lot will have approximately 9.7 metres of frontage on Ellice Street, is 23 metres long, will have an area of 189.5 square metres, and will maintain a somewhat rectangular shape. The proposed retained lot will have approximately 25 metres of frontage on Ellice Street and will be 26 metres long, will have an area of 518.7 square metres, and will maintain a

November 18, 2024

Page 8 of 16

squarer shape. As indicated above, the lots will retain frontage on Ellice Street, a municipally maintained and Local Road as per Schedule 4 of the Official Plan and will maintain vehicular and pedestrian access through a mutual right-of-way established through the consent process. The severed lands will include the driveway and a portion of the turnaround area to benefit the retained lands and the retained lands containing the two vehicular parking spaces, walkway and bike parking to benefit the severed parcel (Exhibit G – Site Plan & Easement).

Engineering staff were circulated through the application process and have indicated that a road widening was not required along Ellice Street. As part of the Development Agreement associated with these lands, any altered entrances on the severed lot will require an Entrance Permit from the Engineering Department prior to any excavation or work within the road allowance (Exhibit B – Recommended Conditions – Consent). The severance is not anticipated to result in any negative traffic hazards based on the mutual easement and frontage allocated to the severed lot. The applicant has adequately demonstrated that there is sufficient turnaround space to make the proposed two standard vehicular parking spaces functional without the need for someone to reverse onto Ellice Street (Exhibit L – Turning Movements).

The subject property is not designated or listed under Part IV or Part V of the *Ontario Heritage Act* or located within or adjacent to a Heritage Conservation District. However, the subject lands are adjacent to a Part IV designated property under the *Ontario Heritage Act* (33-40 Ellice Street and 227-229 Division Street) and were identified as having composite archaeological potential. As a result, Heritage Services staff were circulated as part of the application process. Staff reviewed the Heritage Review letter, prepared by Heritage Studios, and have no concerns with its findings and no additional comments to provide. In addition, staff are in receipt of the requested Archaeological Assessment for the property prepared by Abacus Archaeological Services, dated May 15, 2023, and the property has been cleared of archaeological resources.

The proposed severed and retained lots are located within the Urban Boundary and will be serviced by municipal services. Utilities Kingston, Kingston Hydro, and Engineering staff have been circulated and reviewed the servicing plan, grading plan, and stormwater management brief. As a condition of provisional consent approval, the applicant/owner will be required to provide written approval from Utilities Kingston to the Secretary-Treasurer Committee of Adjustment, that Utilities Kingston is satisfied that the existing services to the retained lot do not encroach on the severed lot (Exhibit B – Recommended Conditions - Consent). Recommendations from the stormwater management brief and compliance with the servicing and grading plan will be required to be included in the future Development Agreement that will be registered on title (Exhibit B).

The proposal meets the intent of the Official Plan, as the proposed severed and retained lots will not result in any negative impacts to adjacent properties or to the neighbourhood, including areas of archaeological potential, with the application of the recommended conditions of approval.

November 18, 2024

Page 9 of 16

Zoning By-Law

The subject property is zoned Urban Residential 5 (UR5) Zone in Kingston Zoning By-Law Number 2022-62 (Exhibit F – Kingston Zoning By-Law Number 2022-62). The UR5 Zone permits a house, semi-detached house, and townhouse as a residential use as per Table 11.1.2.

Concurrent with this application for consent, minor variances have been requested to facilitate the proposed severance of the subject property and its future redevelopment, as described further in the proceeding section.

Minor Variance Application

The review of an application for minor variance(s) is not a simple mathematical calculation, but rather a detailed assessment of whether the variance(s) requested, both separately and together, meet the four tests of a minor variance outlined in Subsection 45(1) of the *Planning Act*. The following provides this review:

1) The general intent and purpose of the Official Plan are maintained

The subject property is designated Residential in the City of Kingston Official Plan (Exhibit E – Official Plan, Existing Land Use).

In considering whether this proposed variance is desirable, the Committee of Adjustment will have regard to the nine requirements included in Section 9.5.19 of the Official Plan.

The subject property is located within a Housing District as shown on Schedule 2 of the City of Kingston Official Plan. Section 2.2.5. identifies that Housing Districts are planned to continue to mature and adapt as the City evolves in a manner that ensures land use compatibility while supporting the construction of new housing. Re-investment and upgrading will be encouraged through minor infilling and minor development. Housing Districts will be designated for residential uses of different types, but will also contain areas of open space, community facilities and commercial uses. The proposal is anticipated to supply a range of housing options within an existing established low-rise neighbourhood, while ensuring that the proposed built form accounts for the existing surrounding development.

The proposal has been designed to ensure that the adjacent built heritage resources are properly considered and that the built form remains compatible with the surrounding buildings and development standards. The property is in an area characterised by mature residential neighbourhood and heritage architecture. A Heritage Review was prepared in support of the proposed development as there are known cultural heritage features adjacent to the site. The review demonstrated that the design of the proposed addition will not adversely impact the cultural heritage value and attributes of the adjacent protected heritage property. The architectural features of the proposed development were informed by the existing townhouse dwellings, and the built form was selected to ensure consistency and compatibility across the

November 18, 2024

Page 10 of 16

severed and retained lands. The proposed addition is zone compliant with the underlying parent zone, separate from the minimum lot area and landscaped open space for the severed lot and the minimum interior setback for the retained lot (an existing situation), and results in a zone compliant and similar height, built form, and massing of the surrounding area.

In regards to on-site functionality, vehicular access will be afforded via the mutual easement over the severed lands into a rear parking area on the retained lands to provide the required one standard vehicular parking space for both lots. The property is currently located in Parking Area 3 (PA3) which requires 1 standard vehicular parking space per lot for a semi-detached house. This proposal is able to meet the base requirement, subject to seeking relief from the location requirement for the severed lot to allow the parking to be located on the retained lot and the parking space length to ensure adequate turnaround is afforded. Similarly, seven long-term bike parking are provided on the retained lands, with the easement establishing access for the severed lands, to ensure that alternative transportation options are considered through this application. No concerns were raised as it relates to functionality and access through the technical review associated with this application.

The proposed severed and retained lots are located within the Urban Boundary and will be serviced by municipal services. Utilities Kingston, Kingston Hydro, and Engineering staff have been circulated and reviewed the servicing plan, grading plan, and stormwater management brief. As a condition of provisional consent approval, the applicant/owner will be required to provide written approval from Utilities Kingston to the Secretary-Treasurer Committee of Adjustment, that Utilities Kingston is satisfied that the existing services to the retained lot do not encroach on the severed lot (Exhibit B – Recommended Conditions - Consent). Recommendations from the stormwater management brief and compliance with the servicing and grading plan will be required to be included in the future Development Agreement that will be registered on title (Exhibit B).

The proposal meets the intent of the Official Plan, as the proposed severed and retained lots will not result in any negative impacts to adjacent properties or to the surrounding Residential lands, including areas of archaeological potential, with the application of the recommended conditions of approval.

2) The general intent and purpose of the Zoning By-Law are maintained

The subject property is zoned Urban Residential 5 (UR5) Zone in Kingston Zoning By-Law Number 2022-62 (Exhibit F – Kingston Zoning By-Law Number 2022-62). The UR5 Zone permits a house, semi-detached house, and townhouse as a residential use as per Table 11.1.2.

November 18, 2024

Page 11 of 16

The proposal is seeking the following variances to facilitate the proposed development:

Variances for Lot Area, Landscaped Open Space, and Interior Setback

Severed Lot Variance Number 1: Minimum Lot Area for a Semi-Detached House

By-Law Number 2022-62: Table 11.6.1.1.(b)
 Requirement: 330.0 square metres per lot
 Proposed: 187 square metres per lot
 Variance Requested: 143 square metres; and,

Severed Lot Variance Number 2: Minimum Landscaped Open Space

By-Law Number 2022-62: Table 11.6.1.9. Minimum Landscaped Open Space
 Requirement: 30%
 Proposed: 13.9%
 Variance Requested: 16.1%; and,

Retained Lot Variance Number 5: Minimum Interior Setback for Semi-Detached and Townhouse

By-Law Number 2022-62: Table 11.6.1.7.(b)
 Requirement: Where a common party wall is located along a lot line: 0 metres from the lot line with the common party wall and 1.2 metres from the other interior lot line
 Proposed: Where a common party wall is located along a lot line: 0 metres from the lot line with the common party wall and 0.7 metres from the other interior lot line
 Variance Requested: 0.5 metres from the other interior lot line; and,

The severed lot requires a minor variance from the minimum lot area and landscaped open space provision of the UR5 Zone. The Kingston Zoning By-Law requires a minimum lot area of 330 square metres per lot for a semi-detached use in the UR5 Zone. The minimum lot area requirement is generally intended to preserve landscaped open space, ensure that on-site functionality is not impacted (i.e., vehicular and bike parking area), and that overdevelopment of a property does not occur. Despite the reduced lot area, the proposal is adequately able to satisfy the minimum requirements for vehicular and bike parking through the establishment of the mutual easement and landscaped open space required for the retained lot.

As indicated earlier, the applicant/owner was required to submit a stormwater management brief prepared by a qualified individual to describe current drainage conditions and post development conditions. Through the technical review portion of this file, it was determined that the Stormwater Management Design Brief (Forefront Engineering Inc, July 2024) demonstrated it is feasible to provide adequate stormwater controls for the site. Given the reduced landscaped open space on the severed parcel in order to provide consolidated access for the two parcels, it has been demonstrated that there is adequate stormwater management controls to be put in place and recommendations from the requested plans/reports will be incorporated on title through provisional approval of the consent application.

November 18, 2024

Page 12 of 16

The UR5 Zone requires a minimum interior setback of 0 metres from the lot line with the common party wall and 1.2 metres from the other interior lot line for a semi-detached house. The intent of the interior setback is to protect the surrounding properties from adverse impacts, such as intrusive overlook and privacy concerns, that could result in a reduction of the ability to enjoy one’s property. The applicant is seeking relief from the minimum interior setback for the other lot line of the retained lot to recognize an existing deficiency and has indicated that the built form on the retained lot is to remain unchanged, with no development being considered at this time (Exhibit G – Site Plan & Easement). Functional access remains feasible through the proposed right-of-way over the severed lot and with the existing 0.7 metre setback for existing and future occupants of the site.

Variations for Location of Vehicular and Bike Parking Spaces and Vehicular Parking Space Length

Severed Lot Variance Number 3: Location of Vehicular Parking Space

By-Law Number 2022-62: Section 7.1.1.
Requirement: Parking to be located on the same lot as the building or use.
Proposed: Parking can be located on-site or on an adjacent parcel (retained lot).
Variance Requested: Removing the requirement for the vehicular parking space to be located solely on the same lot as the corresponding use or building and instead enabling it to be located on the adjacent (retained) lot; and,

Severed Lot Variance Number 4: Location of Bike Parking Space

By-Law Number 2022-62: Section 7.3.1.
Requirement: Bike parking to be provided on the same lot as the use or building.
Proposed: Bike parking can be located on-site or on an adjacent parcel (retained lot).
Variance Requested: Removing the requirement for the bike parking space to be located solely on the same lot as the corresponding use or building and instead enabling it to be located on the adjacent (retained) lot; and,

Retained Lot Variance Number 6: Minimum Parking Space – In line with a driveway

By-Law Number 2022-62: Table 7.4.1.
Requirement: A minimum parking space length of 6.0 metres
Proposed: A minimum parking space length of 5.6 metres
Variance Requested: 0.4 metres; and,

The applicant is seeking relief from the locational requirement for vehicular and bike parking to be located on the same lot as the corresponding use for the severed property. The intent of this provision is to ensure that functional needs for the users of the site are adequately met on the premises where the use is found. However, as indicated earlier in the report, a mutual easement will be established through the consent process for the purpose of ensuring that vehicular and bike parking spaces are provided on the retained lot and accessible by the users of the severed

November 18, 2024

Page 13 of 16

land (Exhibit G – Site Plan & Easement). Considering the establishment of the easement, there are no concerns with the functional needs of the site being adequately addressed and the requested variances meeting the general intent of the zoning by-law.

In addition, to ensure adequate space is afforded for vehicular users to turn around, relief is being sought from the minimum parking space length under Section 7.4. of the By-law. The minimum parking space dimensions in the Kingston Zoning By-Law vary depending on the type of driveway or drive aisle access and require a minimum length of 6.0 metres where spaces are accessed directly by a driveway. The intent of this length is to ensure that adequate maneuverability and functionality for parking a variety of vehicle types. A 5.5 metre parking space length is permitted when a space is accessed perpendicular to a drive aisle. In this context, of completing a consent to sever one new urban residential lot in an area where the turning movements have been shown to remain functional, permitting a reduced parking space dimension length to 5.6 metres is appropriate.

The requested variance maintains the general intent and purpose of the zoning by-law.

3) The variance is minor in nature

The proposed variances provide for a functional and compatible development that supports the creation of a residential lot in a location that is intended to supply a wide variety of housing options through various built forms and is in close proximity to transportation and commercial opportunities, parks and community facilities. The severed parcel is proposed to be developed with a total of three residential dwelling units, containing a total of three bedrooms aggregate to the lot in compliance with Section 4.28.1.1 of Kingston Zoning By-Law Number 2022-62. The development is consistent with the surrounding neighbourhood and the requested variances contemplate the site-specific constraints of the subject lands. The applicant has placed careful consideration into the design of the proposed development, through the placement of building and setbacks for the proposed three-unit semi-detached building on the severed lot to ensure that potential overlook and privacy concerns are mitigated. The variances are considered minor as there are no anticipated negative off-site impacts.

4) The variance is desirable for the appropriate development or use of the land, building or structure

The variance is desirable and appropriate use of the land. The proposed severed lot, while conceding the minimum lot area and vehicular and bike parking location requirements of the zoning by-law, remains similar to the existing built form in the surrounding area. The applicant has contemplated the inclusion of the mutual easement to ensure that the vehicular and bicycle parking requirements can be met for the severed and retained lots. The setbacks of the proposed semi-detached building on the severed lot complies with the Kingston Zoning By-Law Number 2022-62 and the relief sought for the existing deficient setback on the retained lot will recognize the existing deficiency, with no development being contemplated on the retained lot at this time. The proposed development provides the minimum required vehicular and bike parking

November 18, 2024

Page 14 of 16

rates for the proposed built form and is able to accommodate a walkway which complies with the standards of the By-Law. The variances are desirable and appropriate use of the land.

Technical Comments

The applications were circulated to external agencies and internal departments for their review and comment and there were no comments or concerns raised that would preclude the applications from moving forward. Any technical comments that are received after the publishing of this report will be included as an addendum to the Committee of Adjustment Agenda.

Public Comments

At the time this report was finalized, no comments were received with regard to the applications. Any public comments received after the publishing of this report will be included as an addendum to the Committee of Adjustment Agenda.

Previous or Concurrent Applications

There are no concurrent or relevant historic planning applications on the subject property.

Conclusion

The requested minor variance and consent applications are consistent with the Provincial Policy Statement and conform with the general intent and purpose of both the City of Kingston Official Plan and Kingston Zoning By-Law Number 2022-62. The requested minor variance(s) **are** desirable for the appropriate development or use of the land, building or structure and **are** minor in nature. The proposed minor variance application meets all four tests under Subsection 45(1) of the *Planning Act* and is being recommended for approval, subject to the proposed conditions.

The requested consent application has regard to the matters set out in subsection 51(24) of the *Planning Act* and a plan of subdivision is not necessary for the proper and orderly development

November 18, 2024

Page 15 of 16

of the property. As such, the requested consent application is recommended for provisional approval.

Provisional approval of these applications will permit the creation of one new lot, along with a reciprocal access easement, and facilitate the development of the three-storey semi-detached building, containing three residential dwelling units, on the severed lot while addressing performance standards associated with the retained lot.

Existing Policy/By-Law:

The proposed applications were reviewed against the policies of the Province of Ontario and City of Kingston to ensure that the changes would be consistent with the Province's and the City's vision of development. The following documents were assessed:

Provincial

Provincial Planning Statement, 2024

Municipal

City of Kingston Official Plan

Kingston Zoning By-Law Number 2022-62

Notice Provisions:

A Committee of Adjustment Meeting is going to be held respecting this application on October 21, 2024. Pursuant to the requirements of the *Planning Act*, a notice of Statutory Public Meeting was provided by advertisement in the form of signs posted on the subject site 14 days in advance of the meeting. In addition, notices were sent by mail to a total number of 59 properties (according to the latest Assessment Roll) within 60 metres of the subject property and a courtesy notice was placed in The Kingston Whig-Standard (Exhibit I – Public Notice Notification Map).

Once a decision has been rendered by the Committee of Adjustment, a Notice of Decision will be circulated in accordance with the provisions of the *Planning Act*.

Recommended Conditions

The approval of minor variance application, File Number D13-070-2024, to seek relief from the Kingston Zoning By-Law 2022-62 for the future proposed development on the severed lot, to develop the lot with a three-storey semi-detached building containing three residential dwelling units, and to address performance standards associated with the retained lot, shall be subject to the following recommended conditions:

1. Limitation

That the approved minor variance applies only to the severed lot and the retained lands as shown on the approved drawings attached to the notice of decision.

2. No Adverse Impacts

The owner/applicant shall demonstrate to the satisfaction of the City that there are no adverse impacts on neighbouring properties as a result of any modifications to on-site grading or drainage.

3. Building Permit Application Requirements

The owner/applicant shall provide to the Building Services a copy of the decision of the Committee of Adjustment, together with a copy of the approved drawings, when they make application for a Building Permit.

The drawings submitted with the Building Permit application must, in the opinion of the City, conform to the general intent and description of the approved drawing(s), including any amendments and conditions approved by the Committee of Adjustment, as stated in the decision. It must be noted that additional planning approvals may be required should further zoning deficiencies be identified through the Building Permit application process.

4. Standard Archaeological Condition

The City of Kingston is in receipt of an Archaeological Assessment for the property located at 22-28 Ellice Street prepared by Abacus Archaeological Services dated May 15, 2023. This report is on file with the Ministry of Citizenship and Multiculturalism. The City has received and relies upon the report of the professional archaeologist as filed but reserves the right to require further reports should further evidence be uncovered.

The applicant may be required to further review the state of archaeological resources on the property depending on the recommendations of the report and subject to input and review from the Ministry of Citizenship and Multiculturalism. The City shall not be restricted in its ability to determine requirements related to review, assessment and/or protection should archaeological resources be found on site. Any

costs arising from such requirements of the City or any other duly authorized Government body shall be borne solely by the applicant.

Recommended Conditions

The provisional approval of consent application, File Number D10-034-2024, to sever an approximately 189.5 square metre lot with 9.7 metres of road frontage on Ellice Street from the existing 708.2 square metre property located at 22-28 Ellice Street and establish a reciprocal access easement to recognize the proposed shared driveway and rear vehicular and bike parking area with the associated walkways for the severed and retained lots, shall be subject to the following recommended conditions:

1. Certificate of Official and Deadline

That all conditions are satisfied and the Certificate of Official be presented to the Secretary-Treasurer, Committee of Adjustment for certification under Section 53(42) of the Planning Act, R.S.O. 1990 as amended, within two years of mailing of this notice. We suggest that the Land Registry Office be consulted for preapproval of the Certificate of Official to avoid delays.

The Certificate must be registered within two years from the issuance of the certificate as required under Section 53(43) of the Planning Act, R.S.O. 1990, as amended. A copy of the registered transfer certificate shall be provided to the Secretary-Treasurer, Committee of Adjustment to complete the file.

2. Reference Plan

That a digital version of a Reference Plan be provided in a PDF and AutoCAD Windows readable format on a compact disc (CD), USB memory stick or by email, illustrating the consents and easements as parts on a plan prepared and presented to the Secretary-Treasurer, Committee of Adjustment prior to the issuance of the Certificate of Official.

3. Payment of Taxes

The owner/applicant shall contact the Tax Department at tax@cityofkingston.ca and secure in writing from the Treasurer or the Manager of Taxation and Revenue, proof of payment of current taxes and any special charges (not simply a copy of the tax bill) required to be paid out and a statement of proof that is received and shall be provided to the Secretary-Treasurer Committee of Adjustment, prior to the issuance of the consent certificate. The owner/applicant must pay any outstanding realty taxes and all local improvement charges levied against the property.

4. Standard Archaeological Condition

The City of Kingston is in receipt of an Archaeological Assessment for the property located at 22-28 Ellice Street prepared by Abacus Archaeological Services dated May 15, 2023. This report is on file with the Ministry of Citizenship and Multiculturalism. The City has received and relies upon the report of the professional archaeologist as filed but reserves the right to require further reports should further evidence be uncovered.

The applicant may be required to further review the state of archaeological resources on the property depending on the recommendations of the report and

subject to input and review from the Ministry of Citizenship and Multiculturalism. The City shall not be restricted in its ability to determine requirements related to review, assessment and/or protection should archaeological resources be found on site. Any costs arising from such requirements of the City or any other duly authorized Government body shall be borne solely by the applicant.

5. Associated Minor Variance

That associated Minor Variance Application D13-070-2024 is approved and all related conditions of approval are fulfilled.

6. Cash-in-Lieu of Parkland

That \$2,428.00 shall be paid to the City of Kingston as cash-in-lieu of land dedication for park or public recreational purposes for each new building lot being created. The applicant may choose to pay the fee through their DASH application, provide a certified cheque or provide payment at the front desk at 1211 John Counter Boulevard, prior to the issuance of the Certificate of Official.

7. Civic Address

The owner/applicant shall contact the Planning Division once the Reference Plan has been deposited and provided to the City, and obtain a draft civic address for each new lot created and all appropriate fees shall be paid. The owner/applicant shall provide to the Secretary-Treasurer, Committee of Adjustment, written confirmation from the City that the civic address has been obtained prior to the issuance of the consent certificate.

8. Building Permit Application Requirements

The owner/applicant shall provide to the Building Division a copy of the decision of the Committee of Adjustment, together with a copy of the approved drawings.

The drawings submitted with the building permit application must, in the opinion of the City, conform to the general intent and description of the approved drawings, including any amendments and conditions approved by the Committee of Adjustment, as stated in the decision. Additional variances may be required should further zoning deficiencies be identified through the Building Permit application process.

9. Utilities Services

Prior to the issuance of the Certificate of Official, the owner/applicant shall provide written approval from Utilities Kingston to the Secretary-Treasurer Committee of Adjustment, that Utilities Kingston is satisfied that the existing services to the retained lot do not encroach on the severed lot.

10. Easement or Right-of-Way

Prior to the issuance of the Certificate of Official, the owner/applicant shall provide a draft transfer (easement) to the City for its review and approval as it relates to the

- (a) easement on the severed lands benefitting the retained lands for the purposes of pedestrian and vehicular ingress and egress; and
- (b) the easement on the retained lands benefitting the severed lands for the purposes of pedestrian and vehicular ingress and egress, a vehicular and bike parking area with associated walkways.

After the issuance of the Certificate of Official, the owner/applicant's solicitor shall register the transfer (easement).

11. Development Agreement

The owner shall enter into a development agreement satisfactory to the City to be registered on title to the severed and retained lands. All legal costs associated with the preparation and registration of the agreement shall be borne by the owner. The applicant shall provide a copy of the registered executed agreement to the Secretary-Treasurer, Committee of Adjustment, prior to the issuance of the consent certificate. The agreement shall contain conditions to ensure:

- (a) The Owner shall complete all works on the Owner's Lands in accordance with the stormwater management brief prepared by Forefront Engineering Inc and dated July 8, 2024.
- (b) The Owner shall complete all works on the Owner's Lands in accordance with the approved grading and servicing plan prepared by Forefront Engineering Inc and dated October 16, 2024.
- (c) Any recommendations resulting from the Noise Impact Study prepared by J.E. Coulter Associates Limited dated February 20, 2024, and its proposed conditions be included in the Development Agreement.
- (d) Any recommendations resulting from the Archaeological Assessment shall be included within the development agreement for the lands.
- (e) The maximum number of bedrooms and maximum number of units permitted on the property shall be as per the zoning by-law.
- (f) In the event that deeply buried or previously undiscovered archaeological deposits are discovered in the course of development or site alteration, all work must immediately cease and the site must be secured. The Archaeology Program Unit of the Ministry of Citizenship and Multiculturalism (archaeology@ontario.ca) and City of Kingston's Planning Services (613-546- 4291, extension 3180) must be immediately contacted.
- (g) In the event that human remains are encountered, all work must immediately cease and the site must be secured. The Kingston Police (613-549-4660), the Office of the Chief Coroner as a part of the Ontario Ministry of the Solicitor General (1-877-991-9959), the Archaeology Program Unit of the Ministry of Citizenship and Multiculturalism (archaeology@ontario.ca), and City of Kingston's Planning Services (613-546-4291, extension 3180) must be immediately contacted.
- (h) That the owner be advised that any new or altered entrance to the site will require an entrance permit from the Engineering Division.

(i) That a Building Permit is required prior to the construction or removal of all structures 15 square metres in area or greater. Issues such as but not limited to O.B.C., grading and servicing will be agreed through the permit review process.

REQUESTED CHANGE TO CONDITION #4

10 Birch Avenue
D13-052-2024

14 November 2024

Submission to Committee of Adjustment

On behalf of the owner, we are submitting a request to amend Condition #4 which is attached to the proposed Notice of Decision. This Condition relates to the archaeological clearance of the subject property.

Although the owner does not dispute the general requirement to complete an archaeological assessment of the subject property, a minor change to the wording of the Condition is requested to allow a building permit to be issued for a portion of the project in advance of full clearance from the Ministry respecting archaeological potential.

The current wording does not allow any building permit to be issued for the property, regardless of whether ground disturbance is proposed. This, in our opinion, is overly onerous as the main aspect of the project is to construct an additional storey on the existing footprint of the building. Additionally, the existing wording would restrict any building permit to issued, even for instance for a minor plumbing modification internal to the building and unconnected with the application.

The proposed modified wording of the Condition would allow a building permit to be issued on the subject property if the extent of the works included within the permit do not result in any ground disturbance. The proposed Condition would still require the Ministry's clearance in advance of any permit that allows ground disturbance to occur.

Below are the proposed Condition changes.

Current wording of Condition #4

4. Standard Archaeological Condition

Archaeological clearance of the subject property is required, beginning with a Stage One Archaeological Assessment and including any subsequent assessments as required by the Ministry's 'Standards and Guidelines for Consultant Archaeologists', as amended from time to time, prior to any soil disturbance.

One digital copy of the assessment report(s) and any acceptance letter(s) from the Ministry of Citizenship and Multiculturalism shall be provided to the Secretary-Treasurer of the Committee of Adjustment, prior to the issuance of the building permit.

The City relies upon the report of the professional archaeologist as filed, but reserves the right to require further reports should further evidence be uncovered. The applicant may be required to further review the state of archaeological resources on the property depending on the recommendations of the report and subject to input and review from the Ministry Citizenship and Multiculturalism. The City shall not be restricted in its ability to determine requirements related to review, assessment and/or protection should archaeological resources be found on site. Any costs arising from such requirements of the City, or any other duly authorized Government body, shall be borne solely by the applicant.

Recommended Changes to Condition #4

4. Standard Archaeological Condition

Archaeological clearance of the subject property is required **if ground disturbance is proposed**, beginning with a Stage One Archaeological Assessment and including any subsequent assessments as required by the Ministry's 'Standards and Guidelines for Consultant Archaeologists', as amended from time to time, prior to any soil disturbance.

One digital copy of the assessment report(s) and any acceptance letter(s) from the Ministry of Citizenship and Multiculturalism shall be provided to the Secretary-Treasurer of the Committee of Adjustment, prior to the issuance of ~~the~~ a building permit **related to any structures/building associated with the ground disturbance**.

The City relies upon the report of the professional archaeologist as filed, but reserves the right to require further reports should further evidence be uncovered. The applicant may be required to further review the state of archaeological resources on the property depending on the recommendations of the report and subject to input and review from the Ministry Citizenship and Multiculturalism. The City shall not be restricted in its ability to determine requirements related to review, assessment and/or protection should archaeological resources be found on site. Any costs arising from such requirements of the City, or any other duly authorized Government body, shall be borne solely by the applicant.

If no new ground disturbance is proposed, archaeological clearance of the property is not required.
